DETAILED ACTION

The examiner has considered applicants' amendment filed December 4, 2003. In light of said amendment, the examiner has withdrawn the rejections of record. However, applicants' amendment has necessitated the following new rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-13, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Foster et al (J. Organometallic Chemistry 1985).

Foster et al disclose bidentate-phosphine stabilized cluster complexes. These complexes are comprised of a metal, i.e. cobalt, rhodium or iridium, a phosphine, and a phosphinated silica or phosphinated polystyrene-divinylbenzene support (see summary on p 99). This disclosure anticipates the instant claims.

Allowable Subject Matter

Claims 14 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1621

The following is a statement of reasons for the indication of allowable subject matter: claims 17-13 are drawn to a process for preparing a cyclopentenone ring by reacting carbon monoxide, an alkyne-containing compound and an alkene-containing compound in the presence of a catalyst. The closest prior art of record, however, fails to teach or fairly suggest conducting such as process in the presence of a catalyst as described in the present claims.

Response to Arguments

Applicant's arguments with respect to claims 9-16 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1621

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
